Date: Friday 24th May 2019

Host: Anthony Akkari, Perron Institute

9:30am - 10:00am Introduction

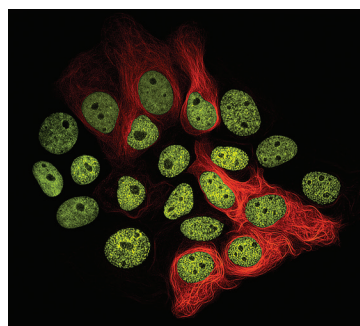

Gabriella MacDougall,
Perron Institute

10:00am - 11:00am The Multi-Faceted Assays Enabled with
Cytation 5 Technology: An Advanced Tool
for Smarter Target-Based, Phenotypic
Research and Screening

Dr. Charles William Amirmansour
BioTek Instruments, Inc.

11:00am - 12:00pm Light Lunch and Learn More

Provided by:
Millennium Science

Millennium Science has recently installed the BioTek Cytation 5 imaging multi-mode reader at the Perron Institute. The purchase of the Cytation 5 was kindly supported by the Ian Potter Foundation. Millennium Science is committed to the continuous support and education of customers, and together with the Perron Institute, we are organising this event to let you know more about the Cytation 5 and its capabilities.

For catering purposes please register your attendance using this link:
